

**Welcome to March 2012 Newsletter.**

Well it is the Year of the Chinese Water Dragon and I would like to wish everyone a great year ahead.

Chinese consider that the dragon is unpredictable, untouchable and people cannot see its head and tail at the same time. Therefore, we might see something unexpected happening in 2012.

I would like to introduce myself Gwen Hindmarsh. I took over the Bizprint in November 2011. For the past ten years I have been in the Printing field and have excellent experience and knowledge which I look forward on sharing with my customers.

Since November I have had a few customers concerned about their files and if I still had them on file, so far I have located all files that customers have enquired about.

Bizprint is based in a lovely area of Christchurch with a strong community base. I enjoy meeting people from the community and look forward to working on their projects. A number of business people from around the country stay in this area and have a lot of URGENT job proposals to be printed. I have also noticed a number of companies have moved to Christchurch and will require new stationery, it's been a long 18 months but with the support of new businesses and the strong will of the people. We will all make it through.

Thank you for reading my first newsletter.

Gwen Hindmarsh
